At New Game.

a game, though it is in reality a scientific

demonstration of the fact that the evidence

of one's senses is not to be trusted. She is

a girl with old-fashioned parents who will

tertainment for the young men and women

who like to flock to her home. Not long

ago she gave a "Ten Scents" party for the

benefit of her pet charity. Everybody who

n there, and each comer was blindfolded

before he crossed the threshold. Then, as

he stood in utter darkness, ten widely dif-

ferent articles, each with an odor peculiar-

ly its own, were held under his nose, one

after the other. As I recall it, the ten

smelly things were a rose, an onion, a sprig

of mint, gum camphor, heliotrope, mig-

nonette, an orange, vanilla extract and a

have the list correctly, but I am sure that

of the people who went into test the keen-

ness of their olfactory perception, not one

in twenty succeeded in fitting to every odor

the name of the article which emitted it.

Of course, there was a head prize for the

keen-nosed individual who went through

ness, and there was a booby prize, won by

the young real-estate man who didn't

know mint from vanilla. If you have ever

seen people trying to see with their noses you have no idea how difficult the thing is

to do, and for my part I think the young

woman is to be congratulated on the clev-

Collarettes and Fichus.

There is apparently no end to the variety

of silk, lisse, chiffon, net mull, lace and

other beautiful neck and shoulder decora-

tions shown in all the importing houses of the city. The present display includes

Alexandra collarettes, Marie Antoinette

fichus, Corday berthas, etc. Some of the

new styles reach to the waist in pelerine

fushion; others, like the Alice Roosevelt

cape collar, barely touch the shoulder tips.

The greater portion of the most expensive models are finished with scarf or stole ends.

The range in the price of these fashionable

accessories is also very great. Both French

and American styles are shown, beginning

with articles made of a mixture of mull

and Oriental lace and ending in a tempting

array of Venice, Duchess, Flanderk, Re-

naissance and other costly laces, combined

with chiffon mousseline brilliante, plain and

spangled tulle, fragile gold filigree nets and

hand embroideries arranged on foundations

of silk batiste, crepe lisse and similar transparent materials. There are delicate

styles for women of every age and figure, including bretelle and bertha shapes for

stout women, designed to lie perfectly flat

over the bodice, Recamier and Directoire

models falling low on the shoulders, to

wear with decollete bodices, and fichus rip-pling with single, double and triple frills of lace or embroidered chiffon, for tall

Three Evils.

Miss Grace Noble, a very wise and ex-

perienced woman, who has long studied the

weaknesses and follies of her sex, declares

very emphatically that "cocktails, man and

flattery are the three evils which woman

must shun as completely as the ambitious

man must turn his back upon wine, woman

and song." This is pretty chilling advice to

a pretty woman. Suppose we begin by

tapering off, and suppose she makes a

heroic effort to get along without flattery

while we temporarily dispense with song.

Cocktails are not so bad if you leave out

the bitters, and every woman should be as careful in selecting the man as she is in or-

dering the cocktails. Deprive a woman at

once of cocktails, man and flattery, speak-

ing generally, and-cui bono? As well ask her to go into the Carmelite convent and

For the Slim and the Fat.

Neither the too slim nor the too plump

woman-if any woman ever confesses even

soft folds and drooping puffs, one is left

in pleasing uncertainty as to any excess or

deficiency of flesh. Plump women are apt

## ODORLESS Refrigerators

MOST SATISFACTORY

REFRIGERATOR MADE sers of our ODORLESS RE-RIGERATORS are not troubled with the customary "refrigerator with a strong smell," because the Odorless is constructed in such a way as to have a current of fresh air circulating all the time, which forces all bad odors out. Ten distinct walls are used in its construction to aid in this circulation, and has odorless patent shelves that are removable.

No danger of disease in a box of this kind, because if ice chambers are kept full foods have no chance Another good feature is that LESS ICE IS USED than in any other rerefrigerator, and in view of high prices in ice this is quite an item to

### AMUSEMENTS.

The advance sale of seats for the Weber & Fields engagement at the Park will open to-morrow at 9 o'clock at the Park box office, and there is likely to be a tremendous demand for tickets. The management will do everything possible to prevent specnight of June-a week from next Monday night. The entire Weber & Fields company, with its array of famous comedians and its aggregation of pretty and dashing chorus girls, will be seen in the double bill that is to be given. The first part of the entertainment will be the presentation of the olla podrida of music and nonsense called "Twirly Whirly," a travesty that has kept New Yorkers laughing throughout the theatrical season. The burlesque of Mrs. Frances Hodgson Burnett's "Little Princess" will form the second half of the performance, with Fay Templeton appearing in a good-natured satire of Millie James, the originator of the dainty child

XXX "The Christian," as presented by the Holden Stock Company at the Park, is drawing big matinee audiences, while people have been turned away from the theater at some of the night performances. "But even with such gratifying crowds." said Manager Holden yesterday, "we will make less money this week than during any other week of our engagement in Indianapolis on account of the unusual heavy royalties that we are compelled to pay for the right to produce the Hall Caine play this one week." The audiences have been made up not only of the Park's regular patrons, but of many theater-goers who do not care particularly for the usual run of melodramatic attractions at a popular-price theater. Next week the Holden company will present the favorite old play, "East Lynne," for the first half of the week and an English melodrama entitled "The Fool of St. Arva" during the latter half.

Cecilia Loftus will continue as E. H. Sothern's leading woman for one more seaheroine of the new McCarthy play, "The owned by Conrad G. Lohrmann and located of the Canadian Cordage and Manufacturing the fall. It is to be hered that the Christopher Residues block having accepted the general managership of the Canadian Cordage and Manufacturing Company, of Peterborough. early in the fall. It is to be hoped that the new role will be better suited to her than the part she played in "If I Were than the part she played in "If I Were King" at English's last week. She will star two feet on Senate avenue by 152 on St. The sale was transacted by the A. Metzger agency and the lot is fifty-station on Wednesday night, and was sent to the Soldiers' Home at Lafayette yester-to the Soldiers' Home at Lafayette yester-to the Soldiers' Home at Lafayette yester-to the Soldiers' with the season after next in a play that has

een written for her by Mr. Sothern, who is devoting all of his moments away from the theater to dramatic writing nowadays. The play is to be a story of city and country life in which Miss Loftus will have an opportunity for giving a new series of imitations of noted actresses. She is particularly gifted in this sort of stage work.

> May Irwin has finally decided to permanently retire from the stage, but the comedy laurels will remain in the family, for she has made her sister, Flo Irwin, a present of the rights to present "Sister Mary," "Kate Kipp." "The Swell Miss Fitzswell" and a number of the other original May Irwin successes. Flo Irwin has been in vaudeville for the last four years She is a versatile comedienne and should prove quite a popular star when she goes on tour in her sister's plays. She was last seen in Indianapolis at the Grand with Walter Hawley in a comedy sketch.

George Ade will soon stop writing his 'modern fables' for the newspapers. With | to-day. two such prosperous comic operas as "The Sultan of Sulu" and "Peggy from Paris" showering royalties upon him every week he is alive to the fact that no literary work pays anything like writing comic opera librettos. Ade's new musical comedy, upon which he is now working, will be called "The Country Gentleman." Mr. Ade has taken a cottage in one of Chicago's suburbs and will devote himself exclusively to the completion of the work.

The military operatic comedy, "When Johnny Comes Marching Home," has scored a great success in Chicago, and the indications point to an all-summer run in the Western metropolis. Many of the catchy songs of the piece have made strong hits, and all Chicago is now whistling "My Own United States," the pretty patriotic with Miss Amy Kothe. ballad introduced in the comedy.

De Wolf Hopper will appear in a new opera the latter part of next season and will again tempt fate by going to England with it He was in London several years ago with "The Charlatan," but the production was not liked by the English theatergoers. He thinks that they will take kindly to "Mr. Pickwick" when he gives it in London in the near future.

#### MUSIC.

Claypool Assembly Room To-Night.

Mme. Schumann-Heink, the great German contralto and one of the most famous singers before the public at the present time, will be heard in a song recital this evening at the opening of the assembly room of the new Claypool Hotel. The new place of entertainment, which in the future will be the scene of many important musical and social events in the life of the city, is now she will visit Mrs. Marshall T. Levey. ready for the inspection of the public, and the audience this evening will be made up not only of music lovers who always attend high-class concerts, but of other people drawn to the recital through the great reputation of the singer and for the purpose of viewing the beautiful assembly

It would have been hard for those having charge of the formal opening of the new Claypool's amusement auditorium to secure a better attraction than Mme. Schumann-Heink. The celebrated contralto has been heard in this city upon only one other ocasion and that was in grand opera. There is a great deal of curiosity to hear her won-derful voice in a recital of various compositions. Her programme to-night is sure to prove a very attractive one. It will be the

### YEARS IN SERVICE

married this evening at the residence of the bride's parents by Rev. Witmer. The wedding was a quiet affair. They will BRATE AN UNUSUAL EVENT.

Prominent Railrond Men Present Mr Bronson with Testimonials of Regard-Dinner and Reception. prominent young men of this city. They

> H. M. Bronson, general passenger agent of the Big Four lines, yesterday completed the fiftieth year of his railroad career, having been identified with the passenger service since 1863. The event was appropriately celebrated by Mr. and Mrs. Bronson last evening by a dinner to Mr. Bronson's office force at the new Claypool Hotel | will be a band concert. and later by a reception at their home on North Capitol avenue to friends and neigh-

Many friends called during the reception, admired the many gifts received by the veteran passenger agent, partook of re-Harry Bronson, rate clerk of the Rock Island road, and his son Frank were home for the reception. William Bronson, Mr. Miss Laura Dickmeier, of Cincinnati, who | she is often at her wits' end to provide en- | Bronson's other son, assistant general passenger agent of the Chesapeake & Ohio road, was unable to be present, having been detained by illness in his family at Washington. A number of railroad men from out of the city called and paid their respects to Mr. Bronson and his wife. Warren J. Lynch, general passenger agent of the Big Four; Allen Nye, district passenger agent at Peoria; S. S. La Follete, who epresents the passenger department a Chicago, and J. E. Reeves, general southern agent at Cincinnati, were present. A beautiful silver cup was presented by John S. Lazarus, of the C., I. & W.; Harry Rhein, of the L. E. & W.; W. W. Richirdson, of the Pennsylvania lines; R. P. Algeo, of the C., H. & D. and Monon; A H. Sellars, of the L. E. & W.; J. E. Turner, of the Great Northern; George Maxfield of the Wabash; A. D. Parry, of the Chi-cago & Alton; G. A. Deane, of the Missouri Pacific, and J. E. Powers, of the Rock Island. Best wishes were received from a large number of railroad friends who were unable to attend the reception

utside Indianapolis were present: Charles Merrill, of the New York Central; A. L. Elliott, of the Chesapeake & Ohio; Charles Mordaugh, of the Chicago, Milwaukee & St. Paul; Claude Hill, of the Wisconsin Central, and G. W. Alexander, of Peoria. Many old railroaders dropped in during the evening to wish Mr. and Mrs. Bronson many more years of happy wedded and that Mr. Bronson's connection with the service may endure many years

of that war are so well understood by those who care to inform themselves that articles and addresses delivered by men who have not taken pains to inform themselves should not receive more than passing notice. Bishop Dudley's recent address Bishop Dudleys have long been addressing General Lee, and the soldiers of Grant, Sherman, Thomas and Sheridan have remained quiet through a patriotic desire that nothing be said that will retard comqualities of heart that enabled General Lee to so perfectly win the love of his soldiers; but to win hearts was only one of the elements of generalship. To take adtory, placed in easy reach by the weak condition of the enemy, is the element by which a great general is measured. In this General Lee always signally failed. Had victory with the opportunity offered to General Lee the afternoon of July 1 and forenon of July 2 at Gettysburg the people of the North would have never ceased to demand his removal. He never could have been the hero of such an army as our army

SPRING LAKE PARK ON THE INDIAN-APOLIS & GREENFIELD ROAD.

Various Attractions for Park Visitors on Sundays-Opening of Fairview and Broad Ripple Parks.

The Indianapolis & Greenfield Traction Company has found it necessary to double the number of its cars on Saturdays and Sundays. Beginning to-morrow, hereafter on Saturday afternoons and all day Sundays cars will be run every half hour between Indianapolis and Greenfield. Cars leaving the city on the hour will run through to Knightstown; those leaving on the half hour will connect only with Greenfield. This action is made necessary by the large crowds which patronize the interurban cars on these days. The hourly schedule was inadequate.

The company will again offer special attractions during the summer at Spring Lake Park, a little shady spot near Sugar creek, four miles this side of Greenfield, where there is an artificial lake affording boating and fishing, and plenty of shade trees with red swings and benches. The season will open Sunday, May 31. Free vaudeville entertainments will be furnished every afternoon and evening. On Sundays there is always a game of baseball at 3 o'clock between the Greenfield team and an opposing | the high-school teachers say the grammarnine. The new line between Knightstown and Richmond is expected to be ready for use within two weeks. This will open up interurban traffic between Indianapolis and Dayton, O., as a line between Eaton and Richmond is in course of completion. Between Eaton and Dayton cars are already

The summer season will open Sunday at by blaming teachers all along the line; but Fairview Park, this city. began the final survey this morning of the

complete this survey without delay and then make the necessary grade for the rails. The management of the company states that trouble is being experienced in securing material. The company is endeavoring to have this branch complete by the beginning of next year.

Extension of Franchise Granted.

Special to the Indianapolis Journal. PORTLAND, Ind., May 21.-An extension of their franchise was granted the Eastern Indiana Traction Company by the City Council at its meeting last night. The company is incorporated for the purpose of building an electric line from this city to Richmond, and it was stated that work had already been commenced on the line at Richmond.

Beveridge at Lodge Meeting.

Four candidates were initiated into the mysteries of the third degree of the Knights of Pythias at a meeting in the lodge hall last night. Senator Albert J. Beveridge, a member of the lodge, who was present, made a congratulatory address to the candidates, and spoke to his lodge brothers for half an hour.

An Agreement Reached.

Senators Fairbanks and Beveridge yesterday agreed to recommend Dr. George E. Denny, of Madison, for the appointment as member of the Jefferson county pension board. Dr. Denny will succeed Dr. C. C. Copeland, who resigned several months ago. He is a Democrat.

WHO IS TO BLAME?

Placing the Fault in School and College Educations.

Harper's Weekly. The college presidents charge the high schools with unsatisfactory preparation; school graduates are not fitted to do the high-school work; the grammar-school teachers are critical of the primary-school products; more than half the primary teachers pick flaws in kindergarten methods and results; and kindergartners invariably sigh over the incapacity of parents for the moral and intellectual culture of their children. Parents, of course, retort in most modern set schemes of education, is that each grade, from the ending to the covered to be weak in spelling, uncertain in history, vague in literature, and forthwith the high-school boy begins with haziness about the past and with apprehensions about the future, and the grammar school is scored for inability. Persons who have no children to go through the machinery may look on in mild wonder; but who have children are not blamable for being scared. Can it be that they are faulty for not bringing into the world babies already fitted to enter the high school or the grammar school? Or, for that matter, why not have the youngsters born all ready for the sophomore year? The world kindergartens and

the time schedules of education are ondaries, much less for putting time into them. Training, culture, development-oh, yes, certainly, they answered well for the days of the stage-coach; to-day, we must get there, and get there quick, and, moreover, in our grab for an education, we must pick up and carry along more baggage than ever. So, at every point, one result is that the teacher is saying that the guide next preceding neither packed the baggage well nor packed the whole of it,

No Sorrow Among the Antis.

Providence Journal. A former soldier of the regular army has cone insane as a result of torture inflicted upon him by Moros in the Philippine islands while he was a prisoner in their hands, From the unhappy man's ravings it is assumed that he had endured what is known as the rat punishment. This consists in placing the victim in a small dungeon and turning dozens of hungry rats loose upon him. Will Mr. Herbert Welsh and the rest of the anti-imperialists rise up to express condemnation? Certainly not. There is more rejoicing in the anti-imperialist camp extension line from this city direct to over the conviction of one American soldier Elwood. The towns of Florida and Frankton will be touched. It is the purpose to death in its most unnamable forms.

## 25 Carloads of Singer Sewing-Machines

WERE FOR HOME TRADE.-Train of Singer Sewing-Machines for Indiana and Ohio. The item in The Tribune on Monday regarding the departure of a train of Singer sewing-machines from the big works in this city for Europe, was wrong in one respect. The machines were not for Europe but to supply the trade in two states of this country. Indiana and Ohio. The train consisted of 25 cars, filled with Singer sewing-machines. Eighteen of these cars were billed tor Cincinnati, O., to fill orders for the state agent of the company there, and the other seven cars were headed for Indianapolis to supply orders from the company's state agent in that city. A larger train will soon start out from the works in this city to fill orders

for machines from other states. This shows in some degree the growing condition of the Singer sewing-machine trade in this

## The New Vulcan

# Water Heater

TYOT WATER is just as essential as cooked food. When Gas Ranges were first introduced it was with difficulty that the housekeeper could be persuaded to give up the coal range, even for a trial. Would it do the work? How about the gas bill? Was it perfectly safe? To all of these questions the enormous number of Gas Ranges now sold every year is the best answer and conclusive evidence that the Gas Range has come to stay, and when once used is never discarded.

With the Gas Range established, the hot-water problem arose. Gas water heaters have passed through the experimental stage to a success equal to the Gas Range, and no one who cooks with gas can afford to be without a Vulcan Water Heater. Dishes must be washed in hot water. warm baths are necessary, and, in case of sickness, hot water is often a saver of life-always a necessity.

In every modern residence there is a boiler from which the hot water supply to different parts of the house is drawn, so that a heater attached to the boiler affords the most convenient and economical method of furnishing hot water.

Our new Vulcan No. 9 can easily be attached to any boiler, and is the quickest and best heater made. Five minutes after lighting the burner hot water sufficient for dish-washing is obtained at an expense of less than half a cent, hot water for the bath in fifteen to twenty minutes for less than two cents. Three minutes after lighting the burner nearly a gallon of hot water can be drawn per minute, at a temperature of 100 degrees, making practically an instantaneous heater by which hot water can be obtained any time of the day or night, and is always a ready means of obtaining this household necessity. With a Gas Range no one can afford to be without a Vulcan Water Heater.

The illustration shows the cylinder raised to expose the burner and sections. Should occasion arise

for repairs, or to adjust the burner, one set-screw holds the cylinder in place and no disconnecting of water or gas pipes is necessary. The cylinder is made double, with air chamber, and lined with asbestos. Hundreds of them n use in this city. They all give perfect satisfaction and are very economical. For sale by the

Indianapolis Gas Co., 45 South Penn. St.
